

ADVANCED AND HIGHER EDUCATION SERVICES

With its vision to become the center of excellence among institutions of higher learning, Jose Rizal Memorial State University (JRMSU) is dynamically and consciously applying for various strategies and techniques to cope with the ever changing demands of the society and to maintain its excellent performance in academic endeavor. It is a big challenge for the University to accommodate the needs of Zamboanga del Norte and neighboring provinces by providing competent graduates capable of embarking development to their working places.

The University, with the capacity to provide quality and relevant higher and advanced education in various fields, offers 3 doctorate degree programs, 18 master's degree programs, 50 bachelor's degree programs, 10 non-degree programs, 15 short-term courses and corporate high school. Advanced education programs are on the fields of education, public administration and management, rural development, health and nursing, arts and sciences, criminology, technological and vocational education and agriculture courses. On the other hand, higher education focuses on the fields of engineering, arts and sciences, criminology, industrial and information technology, teacher education, agriculture, forestry and fishery, maritime education, tourism, hotel and restaurant management, nursing and allied health sciences, public and business administration, commerce and accountancy, law, nontraditional courses and other relevant fields of study.

To ensure quality and responsive education that is comparable to the national and international standards, curricular programs of the University have been submitted for accreditation through the Accrediting Agency of Chartered Colleges and Universities in the Philippines (AACUP) and International Standardization Organization (ISO) 9001:2008 for the College of Maritime Education courses. Technical-vocational courses have been also given National Certificate (NC) II by the Technical Education and Skills Development Authority. The University has 15

AACCUP accredited programs, 2 ISO accredited programs, and 15 TESDA accredited technical-vocational courses.

The fact that students in the University have diversities on skills and interests, addressing and attending their needs require much competence on the part of instructors/professors. In order to uphold quality and excellence in service delivery, the University has fervently and unwaveringly provided opportunities for its faculty to be abreast of their fields by attending conferences, seminars and trainings and enrolling in advanced studies. The product of this strong motivation is evidenced by the remarkable performance ratings beyond national passing percentage in board examinations given by the Professional Regulation Commission. The College of Maritime Education has proved its excellence when one of its students ranked number 7 in the whole Philippines in Navigational Watch board examination. Another evidence of this effort is apparent in the achievements of students in academic and extra-curricular activities which most of them obtained the regional and national awards.

These significant achievements paved the way to government and private agencies in Zamboanga del Norte and neighboring provinces to entrust the holistic development of their scholars in the University. This School Year 2011-2012, the number of deserving students enjoying scholarships reaches up to 1300.

JRMSU will continue to venture on its vision of becoming the center of excellence among higher education institutions in the country.

ACCREDITED CURRICULAR PROGRAM

Being an institution of higher learning, JRMSU is challenged to maintain and embark quality and relevant education to its clientele. In response to this, degree programs of the University passed stringent scrutiny of the Accreditation Agency of Chartered Colleges and Universities in the Philippines (AACCU), and International Organization for Standardization (ISO) 9001:2008. Technical-Vocational courses have been accredited by the Technical Education and Skills Development Authority (TESDA). The submission of the curricular programs also served as a motivation to make improvements in the University's faculty qualifications, equipment, and facilities, ensuring the fulfillment of its objective for quality and relevant education.

Faculty Development

The competencies of faculty determine their capacity to deliver excellent and meaningful learning among the students. The kind of learning atmosphere they established and proper teaching methods and techniques they applied are dependent upon their capacity to understand and recognize each student performance level. And one of the best ways to achieve teaching with excellence is through faculty development programs in terms of conferences, seminar-workshops, trainings, etc.

STUDENTS ACHIEVEMENT

The University, as a believer in holistic human development, actively involved its students in academic and extra-curricular activities. Academic activities stimulated students' mental abilities through numerical, verbal/linguistic, and technical challenges. On the same way, extra-curricular activities reawakened students' interests, hobbies and skills after a long and tedious academic year. The type of extra-curricular activities conducted by the University developed students' self-awareness, making them responsible for themselves and to other students. Through this involvement, the University paved the way to strengthening students' multifaceted capabilities that brought impact to their personality.

Table 18 depicts students' adept knowledge and skills in different areas of academic endeavor. Their achievements are manifestations of quality education endowed to them by the University.

JRMSU studes top 2011 National Rizal, History Quiz again

Jose Rizal Memorial State University (JRMSU) overwhelmed the whole Philippines again!

Two (2) students from JRMSU – Main Campus were declared champions during the 2011 National Rizal and History Quiz – High School and College Categories simultaneously held on December 11, 2011 at Abada and Francisco Benitez Halls in Teachers' Camp, Baguio City.

Ma. Alessandra L. Eguia, 14 and a second year Corporate High School (CHS) student, bested 10 contestants from the different regions in the Philippines clinching a score of 71 points.

High school representatives from Aurora National High School and KOR – Silang Chapter capped the second and third places, respectively obtaining 14 and 12 points.

Rumiel R. Daymiel, 18 and a second year Bachelor of Science in Computer Science student, dominated over 35 student-representatives from the different State Universities and Colleges (SUCs) in the country.

Daymiel, obtaining 46 points, edged the student from the Polytechnic University of the Philippines (PUP) who obtained 40 points and left the student from EARIST who obtained 39 points in the third place.

Mr. Paterno S. Baguinat III coached the two student victors.

The National Rizal and History Quiz is an annual competition sponsored by the Order of the Knights of Rizal, in cooperation with the Department of Education (DepEd), Commission on Higher Education (CHED), National Youth Commission (NYC) and the Department of Interior and Local Government (DILG).

Table 19 shows that students of the University are not only highly involved in academic activities but also in extra-curricular activities. Their artistic expression of talents marked the successful conduct of athletics and student organization activities (e.g. cultural, literary, musical, and dance competitions).

SCHOLARSHIP GRANTS

During the School Year 2011-2012, government and private agencies trusted the University's capacity of honing students holistically for them to be useful to themselves and to the community. Several scholarships have been granted to worthy students. The University has also taken its part of leading determined and responsible students in the achievement of their desired careers by granting institutional scholarships. The scholarships granted whether they are from the government, private agencies or institutional have brought optimistic students see a more concrete path towards educational success. From the overall scholarships granted, the University has a total of 1,498 scholars during the first semester and 1, 284 during the second semester.

Honorable Congressman Seth Frederick P. Jalosjos grants TESDA vocational and technical education scholarships in JRMSU

With the vision of seeing the people of the first District of Zamboanga del Norte equipped with vocational and technical skills that are par to national and even to international standards, the young and visionary Congressman Seth Frederick P. Jalosjos granted over 3,000 TESDA scholarship programs for vocational and technical education namely Automotive Mechanics, Driving, Dressmaking and Computer Programming in the year 2011. In Dapitan City, there are 150 students and out-of-school youths who benefited on the said scholarships (50 Automotive Mechanics NC 1, 50 Automotive Mechanics NC 2 and 50 Computer programming NC4). Thus, he has provided a budget of 1 million pesos to JRMSU for the implementation of the training in the City.

Hon. Congressman Seth Frederick P. Jalosjos
Representative, 1st District of Zamboanga del Norte

The vocational and technical education scholarships are important and of big help to the students and out-of-school youths in Dapitan City and in the 1st District as a whole, since these could be used in securing jobs here in the country and even abroad.

This is the effort of Congressman Jalosjos to give attention to high school graduates especially those underprivileged who have no capacity to pursue bachelor's degree.
